

Issues	Main themes	Features	Trade fairs/events
1 February DOP: 16/02/18 CD*: 26/01/18 ED: 19/01/18	Lightning/surge protection Smart home LED/OLED technologies Switch and socket technology Cable ducts Home communications Sun protection systems Doors and gate systems	Light+Building 2018 – I Initial reports on annual sector results, trends, analyses and interviews. The g+h team will have already established prior to the fair what will be on show in Frankfurt.	bautec, Berlin 20/02/–23/02/2018 FeuerTrutz, Nuremberg 21/02/–22/02/2018 R + T, Stuttgart 27/02/–03/03/2018 SHK, Essen 06/03/–09/03/2018 Int/ Handwerksmesse, Munich 07/03/–13/03/2018
2 March DOP: 08/03/18 CD*: 15/02/18 ED: 08/02/18	Measurement and test systems Smart building Building infrastructure External lighting IT systems, ISDN; DSL, VoIP Energy management Heat pumps Ventilation E-mobility	Light+Building 2018 – II Statements from businesses and trade, preview of innovations, new technologies, background interviews and reports on key technologies.	fensterbau/frontale, Nuremberg 21/03/–24/03/2018 light+Building, Frankfurt 18/03/–23/03/2018 Prolight + Sound, Frankfurt 10/04/–13/04/2018 Automatisierungstreff, Böblingen 10/04/–12/04/2018 Hannover Messe, 23/04/–27/04/2018
3 May DOP: 23/05/18 CD*: 02/05/18 ED: 25/04/18	Software Sat technology In-house communication Electric tools Building lighting Video monitoring Fire alarm technology Distributor systems	Heating/conditioning/ventilation Ventilation technology in the context of energy saving regulations. Heat pump concepts for single houses to large structures. Panel heating concepts. Convenient hot water. Room and building air-conditioning. Related energy and commercial aspects.	CeBit, Hanover 11/06/–15/06/2018 Anga Com, Cologne 12/06/–14/06/2018
4 June DOP: 15/06/18 CD*: 25/05/18 ED: 18/05/18	Solar energy Solar heating Smart building Domestic lighting Access control systems Intruder alarm technology Energy management Metering devices	2018 innovations Innovations from all fields of electro-installation technology as a follow-up to light + building. User reports, design studies and new technologies in a major fair review.	Intersolar, Munich 20/06/–22/06/2018 Sicherheits Expo, Munich 27/06/–28/06/2018 IFA, Berlin 31/08/–05/09/2018
5 September DOP: 14/09/18 CD*: 24/08/18 ED: 17/08/18	Wireless solutions Panel heating systems Light management Visualisation systems Switch and socket technology Underfloor systems Modular devices Multiroom systems	Security The market is booming. Latest developments in the fields of fire and intruder alarm systems, video monitoring and access control systems. Expert reports on trade and business to provide detailed background information.	IAA Nutzfahrzeuge, Hanover 20/09/–27/09/2018 Security, Essen 25/09/–28/09/2018
6 October DOP: 12/10/18 CD*: 21/09/18 ED: 14/09/18	Domestic ventilation Smart building Bus and control technologies E-mobility Hot water systems Software Distributor systems Shading systems	Light technology Where is the sector heading? What technologies are driving the market? How are LED and OLED solutions used in practice? What opportunities are there for electro-installers? The g+h feature will answer these questions.	Chillventa, Nuremberg 16/10/–18/10/2018 eMove360°Europe, Munich 16/10/–18/10/2018 belectro, Berlin 06/11/–08/11/2018
7 November DOP: 16/11/18 CD*: 26/10/18 ED: 19/10/18	Switch cabinets Energy management Building lighting Fire prevention Measurement and test technologies Cable ducts Heat pumps Street lighting	Business organisation Process optimisation, vehicle pools, IT, workshops, tools and work clothing.	GDOP Nord, Hamburg 22/11/–24/11/2018 SPS/IPC/DRIVES, Nuremberg 27/11/–29/11/2018
8 December DOP: 14/12/18 CD*: 23/11/18 ED: 16/11/18	Smart building/Smart home Light technology Security technology Heating/conditioning/ventilation In-house communication Building infrastructure IT Manual and electric tools	20 years g+h The g+h team reviews 20 years of electro-installation technology, showcases past highlights and focuses on the innovations of the future.	Eltec, Nuremberg 09/01/–11/01/2019 Bau, Munich 14/01/–19/01/2019

In each issue
Bus technology/smart building

In each issue, we will focus on aspects of building automation from various perspectives. Reference structures, user reports, articles, detailed technology reports, interviews, reviews will be included as will the underlying technologies: heating, air-conditioning, light, energy management, in-house communication, security technologies, software and building infrastructure.
