## Editorial Schedule

### 1. February
- **Main themes:**
  - Smart Building
  - Bus and control technologies
  - E-mobility
  - Cable ducts
  - Software
  - Distributor systems
  - Shading systems
  - Measurement and test systems
- **Features:**
  - Heating/conditioning/ventilation
    - Our feature documents the technological trends in the run-up to the ISH in Frankfurt: the focus is on ventilation engineering in the context of the German Energy Saving Ordinance, heating pumps, area heating concept, hot water comfort, air conditioning of rooms and buildings and energy management.
- **Trade fairs/events:**
  - elctrotechnik, Dortmund
  - FeuerTrutz, Nuremberg
  - ISH, Frankfurt
- **DOP:** 02/11/19
- **CD:** 01/21/19
- **ED:** 01/14/19

### 2. March
- **Main themes:**
  - Fire protection
  - Access control systems
  - Connection method
  - Lightning/surge protection
  - External lighting
  - Underfloor systems
  - Solar energy
  - Switch cabinets
- **Features:**
  - In the run-up to the Stuttgart trade fair we illustrate the current trends in all sectors of building technology.
  - Digitalisation of buildings is a focal point. In this process the networking of systems, which hitherto worked autonomously, plays a significant role.
  - In this area bus technology assumes a key role.
- **Trade fairs/events:**
  - Internationale Handwerksmesse, Munich
  - eltefa, Stuttgart
  - Hannover Messe
  - Prolight + Sound, Frankfurt
  - Intersolar, Munich
- **DOP:** 03/11/19
- **CD:** 02/18/19
- **ED:** 02/11/19

### 3. May
- **Main themes:**
  - Smart building
  - Smart home
  - Light technology
  - Heating/conditioning/ventilation
  - In-house communication
  - Sat technology
  - IT
  - Manual and electric tools
  - Software
- **Features:**
  - Safety engineering has developed as a highly attractive market for the electrical trade. Our feature shows the latest technologies from the fire and burglar alarm, video surveillance and access control sectors.
  - Expert opinion from trade and industry round off the feature.
- **Trade fairs/events:**
  - Anga Com, Cologne
  - CeBit, Hanover
  - Sicherheitsexpo, Munich
- **DOP:** 05/27/19
- **CD:** 05/06/19
- **ED:** 04/29/19

### 4. September
- **Main themes:**
  - Smart Building
  - Switch and socket technology
  - Access control systems
  - Intruder alarm technology
  - Energy management
  - Metering devices
  - IT systems
  - Multimedia
- **Features:**
  - As always, LED technology is a market driver. We use examples from practice to illustrate the myriad possibilities of this technology. At the same time, we take a peep into the development department of leading manufacturers, and we demonstrate how the trade can best open up this market.
- **Trade fairs/events:**
  - IFA, Berlin
  - IAA PKW, Frankfurt
  - Ifa, Leipzig
- **DOP:** 09/02/19
- **CD:** 08/12/19
- **ED:** 08/05/19

### 5. October
- **Main themes:**
  - Heat pumps
  - Controlled Living Space Ventilation
  - Lightning/surge protection
  - Switch and socket technology
  - IT
  - Connection method
  - Fire prevention
  - Software
  - E-mobility
- **Features:**
  - Given the fact that the building boom continues unabated, the topic of digitalisation offers a lucrative playing field for the electronics trade and industry. It heralds the beginning of a new era in electrical installation technology. Our feature points out which new technologies and solutions the industry offers the trade. The core factor is the networking of all the systems.
- **Trade fairs/events:**
  - eMove360° Europe, Munich
  - Medica, Düsseldorf
- **DOP:** 10/10/19
- **CD:** 09/19/19
- **ED:** 09/12/19

### 6. November
- **Main themes:**
  - Wireless solutions
  - Panel heating systems
  - Visualisation systems
  - Underfloor systems
  - Modular devices
  - IT
  - Measurement and test technologies
  - Building infrastructure
  - Switch cabinets
- **Features:**
  - Tradesmen's companies are increasingly operating more like industrial companies. In order to be successful they have to deal with process optimisation, a vehicle fleet, EDP, workshop, tools, work wear and of course, in addition, with recruiting employees. Our feature provides answers to the most important questions.
- **Trade fairs/events:**
  - SPS/IPC/DRIVES, Nuremberg
- **DOP:** 11/19/19
- **CD:** 10/29/19
- **ED:** 10/22/19

### In each issue
- **Bus technology/smart building**
  - In each issue, we will focus on aspects of building automation from various perspectives. Reference structures, user reports, articles, detailed technology reports, interviews, reviews will be included as will the underlying technologies: heating, air-conditioning, light, energy management, in-house communication, security technologies, software and building infrastructure.
